RADical Randy

A **RAD**ically effective asthma education program

Our award-winning **Radical Randy™ Asthma Education Program** helps children:

- see exactly how asthma affects their body
- understand the key parts of their respiratory system
- experience inflammation and tightening using Randy's inflatable airways
- identify asthma symptoms and triggers
- understand how controller meds work and why they should be taken as prescribed
- take an active role to control and manage their asthma

For details and special offers, visit our website or call **1-800-238-7951**.

The Camp RAD curriculum has been successful in reducing emergency room visits and hospitalizations. It is ideal for use in asthma camps, children's hospitals, health fairs, clinics and school education.

- Multi-sensory Learning Tool
- Constructed of Soft, Durable Fabric
- Compatible with Infection Control Procedures
